

Karen Hunter Piano 2022-2023

All of my piano students' first "mission" in this spy-themed piano year will be to practice piano for 30 consecutive days. Once that mission is accomplished, students will begin practicing according to their individualized weekly practice schedule.

Number of practices per week: **5** *If your child can't find 5 times to practice per week, he/she may be too busy for piano lessons.*

Length of each practice session: **5-10 minutes of daily practice** for Wunderkeys Primer Students

At least 15 minutes of daily practice for students in Piano Adventures/Piano Pronto/Wunderkeys Levels 1A & up

MORE PRACTICE = MORE PROGRESS

MY WEEKLY PRACTICE SCHEDULE
